

FORKLIFT ATTACHMENTS: WORK PLATFORM & FORKLIFT HOOK

Exclusively in Support of Dealers

DFX Forklift Work Platforms are designed & built to meet OSHA, state and federal regulations.

The DFX safety forklift man basket features a diamond tread plate floor, 42" high tubular sides, front latching door, 78" high steel mesh backriser, 4" high kick plate & provisions for a safety harness hook-up. A safety chain secures the man basket to the forklift.

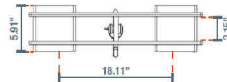

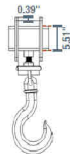

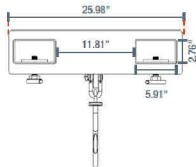

Item#	Platform width	Platform depth	Weight	Capacity
DFXMB3636-CBR	36"	36"	150 lb	750 lb

- The 4 swivel castors can be unscrewed if necessary.
- The parking brakes on 2 of the swivel casters allow for uncomplicated storage.
- The 42in long safety chain, which can be placed around the forks of the forklift, ensures your safety.

DFX-FH5 FORKLIFT HOOK 5,500 LB CAP.
